CONTENTS OF VOLUME 85

No. 1, July 1991

Announcement from the Publisher v

A. W. Pinder, D. Clemens and M. E. Feder (Canada, U.S.A.): Gas exchange in isolated perfused frog skin as a function of perfusion rate 1

L. Sasson, A. Tarasiuk, D. Heimer and H. Bark (Israel): Effect of dexamethasone on diaphragmatic and soleus muscle morphology and fatigability 15

A. M. Leevers and J. D. Road (Canada): Effect of lung inflation and upright posture on diaphragmatic shortening in dogs 29

M. M. Warner and G. S. Mitchell (U.S.A.): Role of catecholamines and β-receptors in ventilatory response during hypoxic exercise 41

G. H. Dillon, D. E. Welsh and T. G. Waldrop (U.S.A.): Modulation of respiratory reflexes by an excitatory amino acid mechanism in the ventrolateral medulla 55

F. Zhang, Z. Wu and Y. Li (P.R. China): Effect of blocking medial area of nucleus retrofacialis on respiratory rhythm 73

M. Gorini and M. Estenne (Belgium): Effect of head-up tilt on neural inspiratory drive in the anesthetized dog 83

A. B. Lumb and J. F. Nunn (U.K.): Ribcage contribution to CO_2 response during rebreathing and steady state methods 97

F. Wallois, J. M. Macron, V. Jounieaux and B. Duron (France): Trigeminal nasal receptors related to respiration and to various stimuli in cats 111

J. Piiper and P. Scheid (Germany): Diffusion limitation of O_2 supply to tissue in homogeneous and heterogeneous models 127

Errata 137

No. 2, August 1991

Announcement from the Publisher iii

A. Nagel (Germany): Metabolic, respiratory and cardiac activity in the shrew *Crocidura russula* 139

R. Stoohs and C. Guilleminault (U.S.A.): Snoring during NREM sleep: Respiratory timing, esophageal pressure and EEG arousal 151

A. Koike, K. Wasserman, Y. Armon and D. Weiler-Ravell (U.S.A.): The work-rate dependent effect of carbon monoxide on ventilatory control during exercise 169

G. C. Hays, P. I. Webb and J. R. Speakman (U.K.): Arrhythmic breathing in torpid pipistrelle bats, *Pipistrellus pipistrellus* 185

P. Kaapa, J. U. Raj, B. O. Ibe and J. Anderson (U.S.A.): Vasoconstrictor response to prostacyclin in rabbit pulmonary circulation 193

J.-P. Richalet, A. Hornych, C. Rathat, J. Aumont, P. Larmignat and P. Rémy (France): Plasma prostaglandins, leukotrienes and thromboxane in acute high altitude hypoxia 205

H.-O. Pörtner, L. M. MacLatchy and D. P. Toews (Canada, Germany): Acid-base regulation in the toad *Bufo marinus* during environmental hypoxia 217

D. Böning, C. Hollnagel, A. Boecker and S. Göke (Germany): Bohr shift by lactic acid and the supply of O_2 to skeletal muscle 231

K.-J. Kim, J. M. Cheek and E. D. Crandall (U.S.A.): Contribution of active Na^+ and Cl^- fluxes to net ion transport by alveolar epithelium 245

S. C. Scott, J. D. G. Inman and I. R. Moss (U.S.A.): Modulation by mu opioid antagonism of sleep and respiration in neonatal swine 257

No. 3, September 1991

Announcement from the Publisher iii

D. C. Betticher, J. Geiser and A. Tempini (Switzerland): Lung difusing capacity and red blood cell volume 271

E. van Lunteren (U.S.A.): Contractile and endurance properties of feline triangularis sterni muscle 279

G. H. Dillon, C. A. Shonis and T. G. Waldrop (U.S.A.): Hypothalamic GABAergic modulation of respiratory responses to baroreceptor stimulation 289

J. P. Mortola (Canada): Hamsters versus rats: ventilatory responses in adults and newborns 305

D. A. Bascom, I. D. Clement, K. L. Dorrington and P. A. Robbins (U.K.): Effects of dopamine and domperidone on ventilation during isocapnic hypoxia in humans 319

G. Song, A. Mizuguchi and M. Aoki (Japan): Axonal projections from the pontine pneumotaxic region to the nucleus raphe magnus in cats 329

V. W. Lin. G. C. Kramer, G. H. Parsons and C. E. Cross (U.S.A.): Laser Doppler velocimetry of tracheal blood flow in sheep 341

A. R. Elliott, E. P. Steffey, K. A. Jarvis and B. E. Marshall (U.S.A.): Unilateral hypoxic pulmonary vasoconstriction in the dog, pony and miniature swine 355

S. C. Wood (U.S.A.): Temperature acclimation of respiratory function in the salamander *Taricha granulosa* 371

C. E. Kasserra, D. R. Jones and M. R. Hughes (Canada): Acid-base disturbance and ventilatory response to changes in plasma osmolality in Pekin ducks 383
